“Staff loyalty – Why and how”

Involving employees of all grades in business planning is vital to Pizza Express’ success. Its regular “board round tables” for restaurant staff, innovative career development programmes and flexible working arrangements have resulted in a level of staff loyalty which is unusual for the industry: it’s not uncommon to meet a member of staff who has worked for the company for 20 years.

Tuesday 10th February 2009, 8am – 10am
Pizza Express 7-9 Charlotte Street, London, W1T 1RB.

This FREE breakfast is one of a series for senior managers and is by invitation only. Host organisations will describe how good jobs have benefited their businesses; find out how you can translate this into practical action within your own business, whatever its size. Help us to understand the challenges and opportunities you face and be part of shaping the next stage of the *London Works* employer campaign.
