

The Time is now – towards a healthier London

*The London Health Commission
seminar series – Spring/ Summer 2007*

30 April 2007 – Health inequalities
hosted by University of East London

Questions for plenary discussion:

- o What policy areas should be prioritised?
- o What approaches/ interventions do we know will work? And which do we know will NOT work?
- o What **specific** new innovative interventions should we recommend the Mayor tries out through the strategy?
- o What **specific recommendations** do you suggest the LHC considers for inclusion in their recommendations to the Mayor?
